

CAPABILITY STATEMENT

Secret-Cleared Software Engineering Talent for Federal Missions

Juan Vargas, Founder | 928-315-9542 | info@expeditionfederal.com
expeditionfederal.com | Yuma, AZ

COMPANY OVERVIEW

Expedition Federal LLC is a founder-led small business that partners with prime contractors and subcontractors to deliver full-stack software engineering on federal programs. The founder brings 6+ years of software engineering experience, including five years as a contractor supporting DoD and DHS missions while holding a Secret clearance, with direct experience on programs for DISA, DTIC, and TSA.

CORE COMPETENCIES

- **Full-Stack Application Development** — Java, Groovy, Spring, Grails, Angular, ASP.NET, Python.
- **API & Systems Integration** — RESTful API design, endpoint contracts, validation, service integration.
- **Enterprise Architecture & Modernization** — Layered architecture, IoC, legacy modernization, ORM optimization.
- **DevSecOps & CI/CD Delivery** — Jenkins, Docker, Maven, Git, SonarQube, AWS-to-Azure application migration.
- **Identity, Access & Security Compliance** — RBAC, API authorization, security and code-quality remediation.
- **Database Development & Reporting** — MySQL, MS SQL Server, SSIS/ETL, Hibernate/GORM, application reporting.
- **Agile & SAFe Delivery** — Scrum, Kanban, and SAFe ceremonies; sprint planning, backlog refinement, and iterative delivery.

PAST PERFORMANCE — FOUNDER-LEVEL EXPERIENCE

The following reflects the founder's individual experience delivered as a contractor through prior employers, not the past performance of Expedition Federal LLC.

DISA | i4tek (2025–2026) — Full-stack DoD self-service marketplace platform: Grails/Groovy, MySQL, Angular/TypeScript, REST APIs, RBAC, CI/CD, automated provisioning workflows.

DTIC | MassLight (2022–2024) — Go-to developer on a DoD budgeting platform. Led efforts in containerization, Azure application migration, and legacy modernization; also handled Jenkins CI/CD, security remediation, code reviews & mentoring.

TSA | Accenture Federal Services (Annapolis Junction, MD) (2021–2022) — Full-stack web application for the passenger prescreening program: Spring/Java, JavaScript, jQuery, Bootstrap; end-to-end feature ownership within Agile delivery cycles.

COMPANY DATA

UEI: JC2TRU1BH9Q3

CAGE Code: 25LQ7

Primary NAICS:

541511 – Custom Computer Programming Services

Secondary NAICS:

541512 – Computer Systems Design Services

541519 – Other Computer Related Services

Business Type: Small Business

Year Established: 2026

Engagement: Subcontract & Teaming

STATUS & CERTIFICATIONS

Nontraditional Defense Contractor

HUBZone — Planned (anticipated 2027)

FOUNDER CLEARANCE

Secret (Current)

EDUCATION

B.S., Computer Science (minor, Economics)

University of Arizona

KEY DIFFERENTIATORS

Founder-Led Delivery — Direct engineering, fast decisions, rapid integration into prime teams.

Available Immediately — No notice period; can onboard once a contract is signed.

AI-Ready Engineering — Policy-compliant AI chatbot-assisted coding on prior federal programs; human-reviewed agentic AI coding on internal company work.

National Reach — Yuma, AZ-based with prior hybrid DMV experience; available nationwide for on-site, hybrid, or remote work.
